

Polyfam® PR629B

Description

Polyfam® PR629B is a non-plasticized aqueous dispersion based on vinyl acetate acrylate. It is specially developed for the use of fabric finishing and non-woven binding.

Physical Properties

Appearance	Milky White
Density (g/cm³)	approx 1.08
Solid Content (%)	45±1
pH	4 - 6
Brookfield Viscosity (cP)	20-100
MFFT (°C)	20
Hardness (s)	160
Storage Temperature (°C)	5-25
Shelf Life (months)*	6

* When stored inside a building at a stable temperature between 5°C and 25°C.

Features

Polyfam® PR629B is recommended to be employed mainly in fabric finishing, fiber fill binder and sizing agent. When it is used in above-mentioned application, it is characterized by its ease of formulation, resistance to discoloration and moderate durability to washing.

Industry Safety and Environmental Protection

Not a hazardous substance.
